TPDES
STORM WATER
COMPLIANCE
WORKSHOP**

The San Antonio Water System does not recommend, nor does it endorse any vendors' or manufacturers' products that are used during this course.

Training Workshop

San Antonio Water System, in partnership with the Texas Commission on Environmental Quality and Bexar County, is offering workshops to assist personnel conducting construction site inspections and Storm Water Pollution Prevention Plan (SWPPP) reporting.

Items cover in the SWPPP reporting:

- Proper Submittal of Notices to local MS4,
- Proper Construction Site Postings,
- Site Inspections of Major Observations,
- SWPPP Inspector Qualifications,
- Signatory Delegation for SWPPP Reports,
- Proper SWPPP Site Map Updates

City of San Antonio Ordinance 94002

- Submittal of Construction Site Postings,
- Required Construction Site Postings,
- Non-Compliance Enforcement Procedures

Workshop Details

The workshop will include:

- **Presentations by:**
 - San Antonio Water System
 - Texas Commission on Environmental Quality
 - Bexar County
- **An “interactive” site inspection**

The workshop is designed for the field inspector that is performing the TPDES required site inspections and SWPPP updates.

Seating is limited. Attendees will consist of an array of residential and commercial companies.

An email confirmation letter will be sent to attendee with class information and directions to the workshop location, within 1 week prior to class.

Registration Form

- Submit a separate form for each attendee.
- Registration is free.
